

CREATING THE WATER WORKFORCE OF THE FUTURE

WEBINAR SERIES

People Are a Utility's Most Important Asset

Recruiting and retaining a talented and diverse workforce is one of the most important challenges facing today's water and wastewater utilities. It often takes many partners to create a truly sustainable and motivated workforce.

Please join EPA and other partners to hear how utilities can collaborate with to reach the next generation of the water workforce. In this webinar, hosted by EPA, you will hear from:

- Julia Beck, Vice President of Networks, Project Wet Foundation, has developed educational resources for the organization and provided trainings.
- April Lopez, Water Conservation Education Specialist, El Paso Water, works with teachers across multiple school districts and leads programming for field trips and in-classroom visits.
- Cindy Busche, Environmental Education Manager, Boise WaterShed Education Center, has developed and teaches programs about water protection and water conservation.

February 18, 2020
1:30-3:00 p.m. Eastern Time
